22nd JUNE 2026

FUNCTIONAL TRAINING

Premium Membership 45-minute classes

CLASS DESCRIPTION	
AEROBIC	High paced workouts with alternating periods of intense activity alongside rest or low intensity exercise. Designed to improve cardiovascular fitness in a much shorter timeframe.
STRENGTH	Dynamic workouts using resistance/weights training and bodyweight exercises to promote muscular strength and tone. These classes are great for injury prevention and bone density whilst also learning correct lifting technique.
FUNCTIONAL	A mixture of both resistance/weights training and cardiovascular exercises within the same workout to improve overall fitness, strength, balance and coordination. Movements in the class carry over to day-to-day real life activities.
BOOT CAMP	A dynamic group workout that combines elements high-intensity interval training (HIIT) and functional exercises. These classes are designed to provide a total body workout that challenges participants both mentally and physically. Participants are encouraged to push their limits, fostering a sense of camaraderie and creating a supportive community within the class. These workouts may be outdoor, or in Group Fitness room - weather dependent.
